=====

#### Phase 1: Core Infrastructure

- Database design and setup
- Authentication system
- Basic admin panel

#### Phase 2: Content Management

- Multilingual content system
- Image management
- SEO optimization

#### Phase 3: E-commerce Features

- Product catalog
- Shopping cart
- Payment integration

#### Phase 4: Advanced Features

- Analytics dashboard
- Communication systems
- AI integration

#### Phase 5: Testing & Deployment

- Quality assurance
- Performance optimization
- Production deployment

### MAINTENANCE & SUPPORT

=====

#### Ongoing Support:

- System monitoring
- Bug fixes and updates
- Feature enhancements
- Technical support

#### Training:

- Administrator training
- User documentation
- Video tutorials
- Support materials

### PROJECT VALUE

=====
